## CTECS - Vision of Graduate

### Connecticut Technical Education and Career System

# Vision of a Graduate

*A CTECS Graduate is...*

**A Problem Solver**

**Work Ready**

**Respectful**

**Skilled Socially**

**A Critical Thinker**

**An Effective Communicator**

**The Vision of a Graduate (VoG)** at the Connecticut Technical Education and Career System (CTECS) embodies our commitment to preparing students for success in Connecticut's workforce.

Developed in collaboration with students, parents, staff, and employers, the VoG ensures that CTECS students are not only job-ready but also equipped to lead, innovate, and adapt in a dynamic world.

As educators, we are dedicated to developing these qualities by providing a comprehensive education that empowers our students to achieve their fullest potential and make meaningful contributions to society.

## A Problem Solver

*Problem solvers tackle challenges by identifying root causes of issues, brainstorming solutions, implementing effective strategies, and demonstrating adaptability.*

- Engage students with open-ended, creative thinking tasks that require both conventional and innovative solutions.
- Facilitate group discussions and collaborative projects.
- Use real-world scenarios and hands-on activities.
- Highlight the importance of effort, persistence, and continuous learning.
- Provide regular feedback and encourage reflection.

## Work Ready

*To be work-ready includes a combination of technical expertise, soft skills, and personal qualities that ensure a graduate can effectively contribute to the workplace from day one.*

- Set high standards for punctuality, responsibility, professionalism, and task completion.
- Use project-based learning and collaborative assignments.
- Emphasize clear written and verbal communication.
- Offer practical exercises like mock interviews and resume workshops.
- Integrate technology and teach digital literacy.

## Respectful

*Graduates who embody respectfulness emphasize the importance of treating others with dignity, valuing diversity, and fostering an inclusive and positive environment, both personally and professionally.*

- Demonstrate personal, interpersonal, and professional skills.
- Show respect for diversity.
- Model respect through active listening and empathy.
- Set clear expectations for respectful interactions.
- Promote collaboration and group discussions.
- Celebrate respectful behavior.
- Address disrespect promptly and constructively.

## Skilled Socially

*Graduates who are skilled socially are equipped to navigate social environments, build relationships, and contribute positively to their communities and workplaces.*

- Show awareness of global responsibility to others and the environment.
- Participate in community involvement.
- Design cooperative group projects and team activities
- Set expectations for respect and give regular feedback.
- Facilitate discussions on inclusivity, kindness, and respect.
- Model positive interactions and recognize strong social skills.

## A Critical Thinker

*Critical thinkers approach problems systematically by analyzing, evaluating, and synthesizing information to make well-informed decisions and contribute to innovative solutions.*

- Encourage critical thinking individually and collaboratively.
- Design lessons that challenge assumptions and explore diverse viewpoints.
- Use open-ended questions, rigorous activities, and cross-curricular projects.
- Integrate project-based learning and real-world problem-solving.
- Offer reflective opportunities like journaling and discussions.
- Cultivate an environment that values curiosity and inquiry.

## An Effective Communicator

*Effective communicators convey ideas, information, and emotions accurately and persuasively, fostering understanding and collaboration.*

- Communicate effectively using oral, written, visual, artistic, and technical modes.
- Include group discussions, presentations, and peer reviews.
- Promote active listening and thoughtful responses.
- Offer clear guidelines and constructive feedback.
- Stress clear, respectful, and purposeful communication.

## CTECS Instructional Model

CTECS uses the Marzano Compendium to guide research-based instructional strategies that differentiate learning and promote access, engagement, and success for all students. Teachers apply these strategies to support diverse learners (including multilingual learners, students with disabilities, and students with varied academic or technical backgrounds) through scaffolds, modeling, guided practice, and multiple ways to participate and show understanding. This approach ensures every student can work toward proficiency in the Priority Standards and the competencies outlined in the CTECS Vision of a Graduate.

## Curriculum Introduction

This curriculum document outlines the essential learning for this academic program and provides a clear structure for planning, instruction, and assessment. It includes the components required by NEASC Standard 2.2a, along with elements that reflect the unique nature of CTECS academic programs. The curriculum is organized to show what students learn in each course, how learning progresses across grade levels, and how instruction supports both technical skill development and the CTECS Vision of a Graduate.

Teachers should use this document to:

- Understand the overall structure and expectations of the course sequence
- Reference the Course Map to see the scope and sequence of Priority Standards and the alignment to district assessments
- Use the Priority Standards and Units of Study to guide daily, weekly, and cycle-based planning
- Integrate Big Ideas, Essential Questions, Skills/Learning Outcomes, vocabulary, and resources during lesson design
- Plan and implement formative assessments to monitor progress and guide instruction
- Maintain consistency of technical and artistic practice instruction across campuses while adapting to student needs and industry-based opportunities

## Curriculum Components

### Course Map

A Course Map serves as the scope and sequence for this course by outlining the progression of instructional units and the standards that guide teaching and assessment. While each campus will have individual student needs and cycle schedules, all instructors are expected to teach the standards outlined in the Course Map. Using the Course Map below, teachers will intentionally plan learning experiences that prepare students to meet the identified standards within the designated assessment windows.

### Priority Standards (Units of Study)

Priority Standards identify the most essential learning in the program. They reflect the core competencies and skills that require the greatest instructional focus and appear on program assessments. Priority Standards guide each Unit of Study with big ideas, essential questions, content topics, and skills/learning outcomes aligned to assessments.

## **Vertical Alignment**

Vertical alignment shows how Priority Standards and instructional expectations progress within the program. It provides a clear pathway of skill development, increasing complexity, and technical proficiency across a sequence.

## **Learning Outcomes**

Learning outcomes are what students will know (Concepts) and be able to do (Skills). Concepts identify the major content topics within the Priority Standard (Unit of Study). They appear in the left column of the Learning Outcomes table and follow a similar coding structure as the Priority Standard.

Skills are learning objectives that describe the measurable actions students must be able to perform to demonstrate proficiency. They appear in the right column of the Learning Outcomes table and show the progression of learning evidence in the Priority Standard.

## **Vocabulary**

Essential vocabulary includes the content and academic terms students must understand and use accurately to engage in learning and demonstrate proficiency on assessments. Vocabulary is foundational to communication, and should be a primary initial focus within each unit and taught explicitly through modeling, demonstration, and repeated application.

## **Resources**

Resources include the texts, materials, and digital tools that support learning within each unit to achieve the standards.

## **Assessment Practices**

Teachers use ongoing formative assessments—such as questioning, checks for understanding, performance demonstrations, reflections, and teacher observation—to monitor progress, guide instruction, and support all learners in mastering the Priority Standards.

Each program also includes district assessments, which measure proficiency on the Priority Standards identified in the Course Map. These assessments provide consistent evidence of student learning across campuses and ensure alignment to course expectations and program outcomes. Teachers should reference the Course Map and Units of Study when planning instruction to ensure students have opportunities to practice and demonstrate the skills and knowledge assessed on the district assessments.

## Visual Arts Vision

The vision for visual arts in the Connecticut Technical Education and Career System (CTECS) is to empower students through Visual Arts Education to develop the creativity, communication, collaboration, and critical skills needed for success in the 21st century. Through visual art's rich cultural heritage and universal language, students grow as expressive, empathetic, and lifelong learners prepared to thrive in a diverse and evolving world.

## Visual Arts Curriculum Philosophy

The CTECS Visual Arts Curriculum 24-25 revision was modeled after CSDE Model Curriculum. The curricula were constructed using the [Connecticut State Department of Education \(CSDE\) K–12 Curricula Design Principles Handbook](#) and the [National Core Arts Standards: A Conceptual Framework for Arts Learning](#) as frameworks to structure and inform the design process in order to ensure access to high quality, high-impact teaching and learning aligned to the content standards adopted by the Connecticut Board of Education to provide CTECS's students access to equitable educational opportunities within a culture of high expectations.

This standards-based curriculum defines what students are expected to learn by course; it provides a roadmap of the essential learning outcomes for mastery by the end of the course. The curriculum combines how teachers will teach to develop skills, content knowledge, and assess students' ability to transfer learning. The structure and organization of curriculum are guided by a curriculum framework that must include standards aligned concepts, skills, high impact instructional methods, high quality materials, and multiple means of assessment aligned to standards.

## Aligned Prioritized Standards

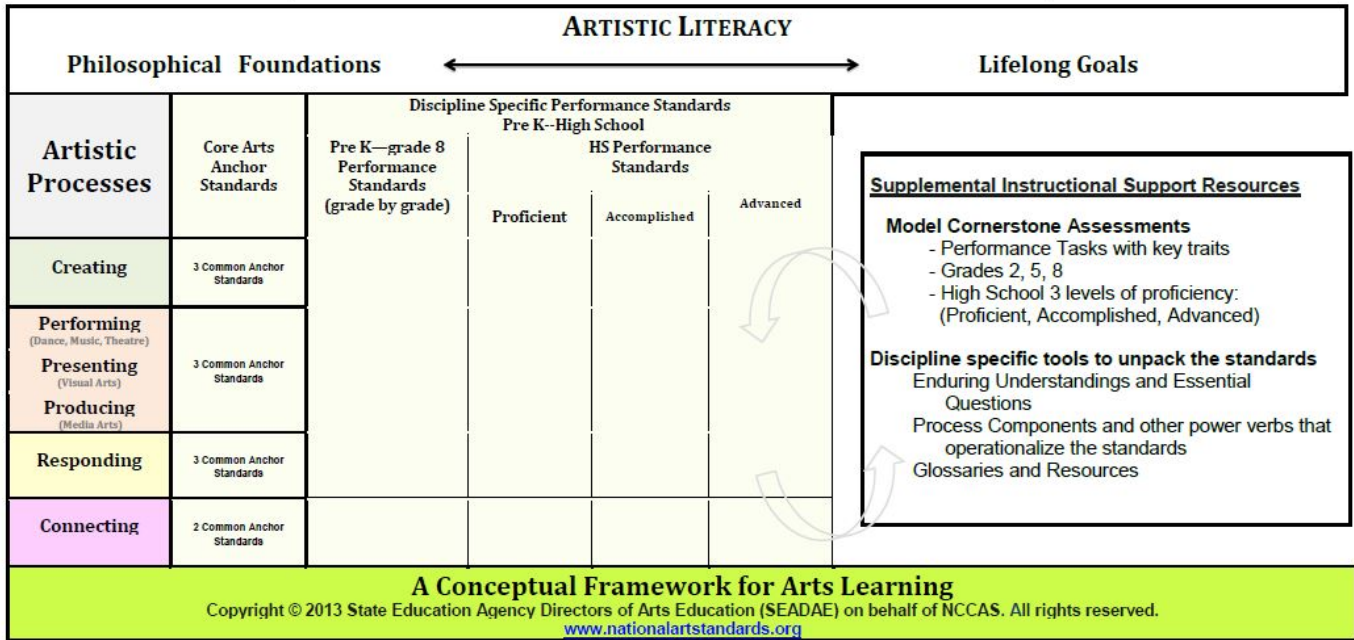

- [CT Arts Standards/National Visual Arts Standards](#)

### National Core Arts Standards

DANCE MEDIA ARTS MUSIC THEATRE VISUAL ARTS

Feb. 12, 2014

### Trade Art Curriculum Prioritized Standards by Unit

	Unit 1	Unit 2	Unit 3	Unit 4
<b>Unit Priority Standards</b>	VA:Cr2.1.1a VA:Cr2.2.1a VA:Cr3.1.1a	VA:Pr5.1.1a VA:Re.9.1.1a	VA:Pr5.1.1a VA:Re.7.1.1a VA:Re.9.1.1a	VA:Cr1.1.1a VA:Pr4.1.1a VA:Re.9.1.1a

## Trade Art Curriculum Unit 1

### Priority Standards Addressed in Unit 1

**VA:Cr2.1.1a**

Engage in making a work of art or design without having a preconceived plan.

**VA:Cr2.2.1a**

Explain how traditional and nontraditional materials may impact human health and the environment and demonstrate safe handling of materials, tools, and equipment.

**VA:Cr3.1.1a**

Apply relevant criteria from traditional and contemporary cultural contexts to examine, reflect on, and plan revisions for works of art and design in progress.

**Big Ideas:**

- Artists and designers develop excellence through practice and constructive critique, reflecting on, revising, and refining work over time
- Through art-making, people make meaning by investigating and developing awareness of perceptions, knowledge, and experiences.
- Artists and designers experiment with forms, structures, materials, concepts, media, and art-making approaches.
- Creativity and innovative thinking are essential life skills that can be developed.

**Essential Questions:**

- How do artists and designers care for and maintain materials, tools, and equipment?
- How does collaboration expand the creative process?
- How does one determine criteria to evaluate a work of art?

### Learning Outcomes

<i>Students will know:</i>	<i>As evidenced by: (oral, written, or performance):</i>

- SORA
  - <https://soraapp.com/library/ctecsct> (Access through ClassLink)

### Skill Practice:

Ideas for student reflection on their learning (\*these suggestions can be used throughout all 4 units)-

- <https://www.responsiveclassroom.org/stop-and-think-teaching-students-to-reflect/>
- <https://www.edutopia.org/article/simple-strategy-encourage-student-reflection-and-improvement/>
- <https://thinkingpathwayz.weebly.com/blog/strategies-to-support-student-self-reflection>

### Cross Cycle Tasks:

*Suggestions:*

- Use EdPuzzles/Google Forms for pre-assessment/questionnaire or survey about upcoming topics.
- Have students begin reading a brief connected text at the end of the academic and finish during the trade cycle.
- Use Google Forms for a questionnaire or survey about upcoming topics.
- Brief writing task related to end of cycle lesson or as a discussion piece for upcoming lesson.
- Student question development about upcoming topics. Provide question starters: *Classroom Question Stems* by Cormier; *DOK*; *Bloom's Taxonomy*.
- Quizlet Study Sets activity.

### Last day of the Cycle:

- Students review/critique artwork.
- Students meet in small groups to read and discuss text they will create posts for:
  - Week 1: post 2 reflections and respond to 2 reflections

- Week 2: post 2 questions or wonderings

**First day of the New Cycle:**

- Review of previous work
- Students meet in small groups to discuss reflection, response, and question posts (approx. 15 minutes)

**Assessments:****Visual Arts Model Cornerstone Assessments:**

[High School: Proficient](#)

[High School: Accomplished](#)

[High School: Advanced](#)

**Formative Assessments:****Suggested:**

- Teacher created
- Observation
- Think-Pair-Share
- Exit Tickets
- Critiques: whole class/peer-to-peer
- Sketchbook

**[Sketchbook Rubric](#)**

- Formative use of the Creative Process
- Formative media exploration
- Formative Elements of Art and Principles of Design

**[Studio Habits of Mind Rubric](#)**

- Formative observation of Student Identity and Voice

**Summative Assessments:****Suggested:**

- Rubrics
- **Rubric- Blank** - Based off the Rubric used in the Connecticut Arts and Standards Model District Documents:

**[Unit Project Rubric Self-assessment](#)**

- Students will use the Creative Process to render a painting that demonstrates their understanding of color theory and their ability to manipulate color. Inherent in their work is their use of critical thinking skills to effectively communicate an idea and/or emotion.

**[Painting Unit Project Reflection](#)**

- Students will participate in a reflective exercise to articulate artistic intention and demonstrate an understanding of artistic concepts.

**Opportunities for Interdisciplinary Connections:**

Artists must connect all disciplines to be successful in our craft. When responding, creating and presenting art we are not just artistic, we are mathematicians, readers, historians, musicians and trades people.

### **Connecticut Core Standards for Literacy in History/Social Studies, Science Technical Subjects**

[https://learning.ccsso.org/wp-content/uploads/2022/11/ELA\\_Standards1.pdf](https://learning.ccsso.org/wp-content/uploads/2022/11/ELA_Standards1.pdf)

#### **Connecticut Secondary Social Studies Standards: Social Studies Inquiry Arc**

- Connecting creative experiences with lived experiences through ourselves and others
- Learning historical context of the piece

### **Mathematical Practice Standards**

- Using perspective, measurements, and proportions.

### **Next Generation Science Standards**

Standards for students that are aligned to priority standards

<https://www.nextgenscience.org/search-standards>

### **International Society for Technology in Education (ISTE)**

Standards for students that are aligned to priority standards

<https://iste.org/standards/students>

### **CTE Competency Standards**

- Utilizing any projects that are able to link to the objects, tools, or techniques that coincide with the different trades that are taught in any of our schools.
  - Aerospace Manufacturing, Architecture, Automotive Technology, Automotive Collision, Repair and Refinishing, Bioscience and Environmental Technology, Biotechnology, Building and Civil Construction, Culinary Arts, Criminal Justice and Protective Services, Digital Media, Diesel and Heavy-Duty Equipment Repair, Electrical, Graphic Design, Heating, Ventilation and Air Conditioning (HVAC), Health Technology, Hairdressing and Cosmetology, Information Technology, Landscape Design, Installation and Equipment, Masonry, Mechanical Design and Engineering Technology, Precision Machining Technology, Plumbing and Heating, Plumbing Heating and Cooling, Robotics and Automation, Tourism, Hospitality and Guest Services Management, Veterinary Science, Welding and Metal Fabrication.

### **Components of Social, Emotional, and Intellectual Habits**

- Develop logic and reasoning/Critical and analytic thinking
- Use evidence and critical thinking to support claims, make arguments and critique the reasoning of others; explain own thinking and responds to others' thinking
- Develop logic and reasoning/Applying known information to new experiences
- Compare, contrast and evaluate experiences, tasks and events building on prior knowledge
- Develop logic and reasoning/Reasoning and problem solving
- Analyze attributes to classify, compare and contrast objects, events and experiences (similarities, differences and associations)
- Develop a positive attitude toward learning/Cooperation during learning experiences
- Listen, discuss, and negotiate ideas in order to discover new learning with peers

## Priority Standards Addressed in Unit 2

### VA:Pr.5.1.1a

Analyze and evaluate the reasons and ways an exhibition is presented.

### VA:Re.9.1.1a

Establish relevant criteria in order to evaluate a work of art or collection of works.

### Big Ideas:

- Through art-making, people make meaning by investigating and developing awareness of perceptions, knowledge, and experiences.
- Visual imagery influences understanding of and responses to the world
- Artists and other presenters consider various techniques, methods, venues, and criteria when analyzing, selecting, and curating objects, artifacts, and artworks for preservation and presentation.
- Creativity and innovative thinking are essential life skills that can be developed.
- Artists and designers balance experimentation and safety, freedom and responsibility while developing and creating artworks.

### Essential Questions:

- How do artists experiment with materials and ideas to create something meaningful?
- How can artists take creative risks while still working responsibly and safely?
- How does practice, feedback, and revision help artists improve their work?
- How do different people decide what makes a work of art successful or meaningful?

## Learning Outcomes

### *Students will know:*

### *As evidenced by: (oral, written, or performance):*

### VA:Pr.5.1.1a

- Exhibition
- Curatorial decisions
- Presentation methods (layout, framing, matting, sequencing, lighting)
- Theme / concept
- Audience
- Purpose / intent
- Context (historical, cultural, social)
- Display space (gallery, classroom, museum, digital platform)
- Artwork selection
- Visual flow / spatial arrangement
- Labeling / artist statement

### VA:Pr.5.1.1a

- Analyze how an exhibition is organized and displayed
- Identify curatorial choices and their purposes
- Evaluate effectiveness of layout and presentation methods
- Explain how display decisions influence audience interpretation
- Compare different exhibition formats (physical and digital)
- Assess how theme and context shape presentation
- Support evaluations with visual and

<ul style="list-style-type: none"> <li>● Interpretation</li> <li>● Viewer experience</li> </ul>	<p>contextual evidence</p> <ul style="list-style-type: none"> <li>● Reflect on how presentation impacts meaning and viewer experience</li> <li>● Propose improvements to exhibition design</li> <li>● Justify conclusions using printmaking and visual arts vocabulary</li> </ul>
<p><b>VA:Re.9.1.1a</b></p> <ul style="list-style-type: none"> <li>● Evaluation criteria</li> <li>● Artwork / collection of works</li> <li>● Artistic intent</li> <li>● Craftsmanship / technique</li> <li>● Composition</li> <li>● Elements of art (line, shape, value, texture, space, contrast)</li> <li>● Principles of design (balance, emphasis, rhythm, unity, variety, proportion)</li> <li>● Cultural context</li> <li>● Style</li> <li>● Theme / concept</li> <li>● Originality</li> <li>● Visual impact</li> <li>● Audience</li> <li>● Reflection</li> </ul>	<p><b>VA:Re.9.1.1a</b></p> <ul style="list-style-type: none"> <li>● Establish clear and relevant evaluation criteria</li> <li>● Analyze artworks using defined criteria</li> <li>● Assess craftsmanship and technique in printmaking</li> <li>● Evaluate composition and design choices</li> <li>● Consider cultural and contextual influences</li> <li>● Compare multiple works within a collection</li> <li>● Justify evaluations using visual evidence</li> <li>● Reflect on artistic intent and effectiveness</li> <li>● Provide constructive feedback</li> <li>● Revise criteria as needed for clarity and fairness</li> <li>● Demonstrate the art criticism method (describe, analyze, interpret, and evaluate) by using specific art vocabulary to evaluate their artwork and the work of their peers</li> </ul>
<p><b>Academic Vocabulary</b></p> <ul style="list-style-type: none"> <li>● space, depth, form, content, composition, plane, tone, cast shadow, reflected light, highlight, foreground, middle ground, background, horizon line, hatching, cross-hatching, stippling, blending, clay, plaster, slip, score, blend, subtraction, manipulation, addition, substitution, relief, casting, assemblage, construction, fabrication, armature, plaster, ceramic, and paper mâché, mold, angle, Identity and Voice, line quality, expressive line, directional/constructive line, value scale, gradation, Creative Process, render, visual communication, readability, drawing pencils(4H-8B), charcoal, blending stump/tortillon, tooth, paperweight, chiaroscuro, Shape- organic and geometric, space- positive and negative, Linear/Point perspective, one-point, two-point, three-point (bird/worm), Collage, assemblage, altered books, composition, picture plane, Primary, Secondary, Tertiary, Complementary, Analogous, Monochromatic, Tints, Shades, Acrylic, Tempera, Watercolor, Canvas, Paint Brushes, Palettes</li> </ul> <p><b>Content Vocabulary</b></p> <ul style="list-style-type: none"> <li>● <b>Elements of Art:</b> Color, Form, Line, Shape, Space, Texture, Value</li> </ul>	

- **Principles of Art:** Balance, Contrast, Emphasis, Movement, Pattern, Rhythm, Unity/Variety

### **Last day of the Cycle:**

- Students review/critique artwork.
- Students meet in small groups to read and discuss text they will create posts for:
  - Week 1: post 2 reflections and respond to 2 reflections
  - Week 2: post 2 questions or wonderings

### **First day of the New Cycle:**

- Review of previous work
- Students meet in small groups to discuss reflection, response, and question posts (approx. 15 minutes)

### **Assessments:**

#### **Visual Arts Model Cornerstone Assessments:**

[High School: Proficient](#)

[High School: Accomplished](#)

[High School: Advanced](#)

#### **Formative Assessments:**

##### **Suggested:**

- Teacher created
- Observation
- Think-Pair-Share
- Exit Tickets
- Critiques: whole class/peer-to-peer
- Sketchbook

##### [Sketchbook Rubric](#)

- Formative use of the Creative Process
- Formative media exploration
- Formative Elements of Art and Principles of Design

##### [Studio Habits of Mind Rubric](#)

- Formative observation of Student Identity and Voice

#### **Summative Assessments:**

##### **Suggested:**

- **Rubrics**
- **Rubric- Blank - Based off the Rubric used in the Connecticut Arts and Standards Model District Documents:**

##### [Unit Project Rubric Self-assessment](#)

- Students will use the Creative Process to render a painting that demonstrates their understanding of color theory and their ability to manipulate color. Inherent in their work

is their use of critical thinking skills to effectively communicate an idea and/or emotion.

### **Painting Unit Project Reflection**

- Students will participate in a reflective exercise to articulate artistic intention and demonstrate an understanding of artistic concepts.

### **Opportunities for Interdisciplinary Connections:**

Artists must connect all disciplines to be successful in our craft. When responding, creating and presenting art we are not just artistic, we are mathematicians, readers, historians, musicians and trades people.

### **Connecticut Core Standards for Literacy in History/Social Studies, Science Technical Subjects**

[https://learning.ccssso.org/wp-content/uploads/2022/11/ELA\\_Standards1.pdf](https://learning.ccssso.org/wp-content/uploads/2022/11/ELA_Standards1.pdf)

### **Connecticut Secondary Social Studies Standards: Social Studies Inquiry Arc**

- Connecting creative experiences with lived experiences through ourselves and others
- Learning historical context of the piece

### **Mathematical Practice Standards**

- Using perspective, measurements, and proportions.

### **Next Generation Science Standards**

Standards for students that are aligned to priority standards

<https://www.nextgenscience.org/search-standards>

### **International Society for Technology in Education (ISTE)**

Standards for students that are aligned to priority standards

<https://iste.org/standards/students>

### **CTE Competency Standards**

- Utilizing any projects that are able to link to the objects, tools, or techniques that coincide with the different trades that are taught in any of our schools.
  - Aerospace Manufacturing, Architecture, Automotive Technology, Automotive Collision, Repair and Refinishing, Bioscience and Environmental Technology, Biotechnology, Building and Civil Construction, Culinary Arts, Criminal Justice and Protective Services, Digital Media, Diesel and Heavy-Duty Equipment Repair, Electrical, Graphic Design, Heating, Ventilation and Air Conditioning (HVAC), Health Technology, Hairdressing and Cosmetology, Information Technology, Landscape Design, Installation and Equipment, Masonry, Mechanical Design and Engineering Technology, Precision Machining Technology, Plumbing and Heating, Plumbing Heating and Cooling, Robotics and Automation, Tourism, Hospitality and Guest Services Management, Veterinary Science, Welding and Metal Fabrication.

### **Components of Social, Emotional, and Intellectual Habits**

- Develop logic and reasoning/Critical and analytic thinking
- Use evidence and critical thinking to support claims, make arguments and critique the

reasoning of others; explain own thinking and responds to others' thinking

- Develop logic and reasoning/Applying known information to new experiences
- Compare, contrast and evaluate experiences, tasks and events building on prior knowledge
- Develop logic and reasoning/Reasoning and problem solving
- Analyze attributes to classify, compare and contrast objects, events and experiences (similarities, differences and associations)
- Develop a positive attitude toward learning/Cooperation during learning experiences
- Listen, discuss, and negotiate ideas in order to discover new learning with peers

### Priority Standards Addressed in Unit 3

**VA:Pr.5.1.1a**

Analyze and evaluate the reasons and ways an exhibition is presented.

**VA:Re.7.1.1a**

Hypothesize ways in which art influences perception and understanding of human experiences.

**VA:Re.9.1.1a**

Establish relevant criteria in order to evaluate a work of art or collection of works.

**Big Ideas:**

- Artists and designers experiment with forms, structures, materials, concepts, media, and art-making approaches.
- Artists and designers balance experimentation and safety, freedom and responsibility while developing and creating artworks.
- People gain insights into meanings of artworks by engaging in the process of art criticism.
- People evaluate art based on various criteria.

**Essential Questions:**

- How does experimenting with materials and techniques help artists discover new ideas?
- How do artists balance creative freedom with responsibility and safety?
- How does discussing and critiquing art help us understand it more deeply?
- What criteria can we use to evaluate whether a work of art is successful?

### Learning Outcomes

***Students will know:***

***As evidenced by: (oral, written, or performance):***

**VA:Pr.5.1.1a**

- Exhibition
- Presentation methods layout, framing, lighting, sequencing)
- Curatorial choices
- Theme / concept
- Audience
- Purpose / intent
- Context (historical, cultural, social)
- Display environment (gallery, museum, digital platform)
- Artwork selection
- Visual flow / spatial arrangement
- Labeling / artist statements
- Interpretation

**VA:Pr.5.1.1a**

- Analyze how an exhibition is organized and presented
- Identify curatorial decisions and their purposes
- Evaluate the effectiveness of layout and design choices
- Explain how presentation influences audience experience
- Compare different exhibition formats (physical vs. digital)
- Assess how theme and context shape the display
- Support evaluations with visual and contextual evidence

<ul style="list-style-type: none"> <li>● Impact / viewer experience</li> </ul>	<ul style="list-style-type: none"> <li>● Reflect on how presentation affects interpretation of artwork</li> <li>● Propose improvements to exhibition design</li> <li>● Justify conclusions using painting and visual arts vocabulary</li> </ul>
<p><b>VA:Re.7.1</b></p> <ul style="list-style-type: none"> <li>● Artwork</li> <li>● Human experiences</li> <li>● Perception</li> <li>● Interpretation</li> <li>● Emotion / mood</li> <li>● Cultural context</li> <li>● Historical context</li> <li>● Theme / concept</li> <li>● Symbolism</li> <li>● Visual elements (line, shape, color, form, texture, space, value)</li> <li>● Principles of design (balance, contrast, emphasis, rhythm, unity, variety, proportion)</li> <li>● Viewer perspective</li> <li>● Social commentary</li> </ul>	<p><b>VA:Re.7.1</b></p> <ul style="list-style-type: none"> <li>● Hypothesize how artwork affects perception and understanding</li> <li>● Analyze visual elements and principles of design for meaning</li> <li>● Connect artistic choices to human experiences</li> <li>● Consider cultural and historical context in interpretation</li> <li>● Reflect on emotional and conceptual impact of artworks</li> <li>● Support hypotheses with visual evidence</li> <li>● Compare multiple works to evaluate different perspectives</li> <li>● Explain interpretations using appropriate art vocabulary</li> <li>● Assess how symbolism or theme communicates experience</li> <li>● Predict how viewers might respond to a work</li> </ul>
<p><b>VA:Re.9.1.1a</b></p> <ul style="list-style-type: none"> <li>● Evaluation criteria</li> <li>● Artwork / collection of works</li> <li>● Artistic intent</li> <li>● Craftsmanship / technique</li> <li>● Composition</li> <li>● Elements of art (line, shape, form, color, value, texture, space)</li> <li>● Principles of design (balance, contrast, emphasis, rhythm, unity, variety, proportion)</li> <li>● Style / genre</li> <li>● Theme / concept</li> <li>● Cultural and historical context</li> <li>● Originality</li> <li>● Audience</li> <li>● Visual impact</li> <li>● Reflection</li> </ul>	<p><b>VA:Re.9.1.1a</b></p> <ul style="list-style-type: none"> <li>● Establish clear and relevant evaluation criteria</li> <li>● Analyze a work of art or collection using defined criteria</li> <li>● Assess craftsmanship and technical execution</li> <li>● Evaluate composition and design choices</li> <li>● Consider style, theme, and cultural/historical context</li> <li>● Compare multiple works for strengths and differences</li> <li>● Justify evaluations using visual and contextual evidence</li> <li>● Reflect on artistic intent and effectiveness</li> <li>● Provide constructive feedback</li> <li>● Revise criteria as needed for clarity and fairness</li> </ul>

- Demonstrate the art criticism method (describe, analyze, interpret, and evaluate) by using specific art vocabulary to evaluate their artwork and the work of their peers

### Academic Vocabulary

- space, depth, form, content, composition, plane, tone, cast shadow, reflected light, highlight, foreground, middle ground, background, horizon line, hatching, cross-hatching, stippling, blending, clay, plaster, slip, score, blend, subtraction, manipulation, addition, substitution, relief, casting, assemblage, construction, fabrication, armature, plaster, ceramic, and paper mâché, mold, angle, Identity and Voice, line quality, expressive line, directional/constructive line, value scale, gradation, Creative Process, render, visual communication, readability, drawing pencils(4H-8B), charcoal, blending stump/tortillon, tooth, paperweight, chiaroscuro, Shape- organic and geometric, space- positive and negative, Linear/Point perspective, one-point, two-point, three-point (bird/worm), Collage, assemblage, altered books, composition, picture plane, Primary, Secondary, Tertiary, Complementary, Analogous, Monochromatic, Tints, Shades, Acrylic, Tempera, Watercolor, Canvas, Paint Brushes, Palettes

### Content Vocabulary

- **Elements of Art:** Color, Form, Line, Shape, Space, Texture, Value
- **Principles of Art:** Balance, Contrast, Emphasis, Movement, Pattern, Rhythm, Unity/Variety

### **Skill Practice:**

Ideas for student reflection on their learning (\*these suggestions can be used throughout all 4 units)-

<https://www.responsiveclassroom.org/stop-and-think-teaching-students-to-reflect/>

<https://www.edutopia.org/article/simple-strategy-encourage-student-reflection-and-improvement/>

<https://thinkingpathwayz.weebly.com/blog/strategies-to-support-student-self-reflection>

### **Cross Cycle Tasks:**

*Suggestions:*

- Use EdPuzzles/Google Forms for pre-assessment/questionnaire or survey about upcoming topics.
- Have students begin reading a brief connected text at the end of the academic and finish during the trade cycle.
- Use Google Forms for a questionnaire or survey about upcoming topics.
- Brief writing task related to end of cycle lesson or as a discussion piece for upcoming lesson.
- Student question development about upcoming topics. Provide question starters: *Classroom Question Stems* by Cormier; *DOK*; *Bloom's Taxonomy*.
- Quizlet Study Sets activity.

### **Last day of the Cycle:**

- Students review/critique artwork.
- Students meet in small groups to read and discuss text they will create posts for:
  - Week 1: post 2 reflections and respond to 2 reflections
  - Week 2: post 2 questions or wonderings

### **First day of the New Cycle:**

- Review of previous work
- Students meet in small groups to discuss reflection, response, and question posts (approx. 15 minutes)

### **Assessments:**

**Visual Arts Model Cornerstone Assessments:**

[High School: Proficient](#)

[High School: Accomplished](#)

[High School: Advanced](#)

**Formative Assessments:**

**Suggested:**

- Teacher created
- Observation

- Think-Pair-Share
- Exit Tickets
- Critiques: whole class/peer-to-peer
- Sketchbook

### Sketchbook Rubric

- Formative use of the Creative Process
- Formative media exploration
- Formative Elements of Art and Principles of Design

### Studio Habits of Mind Rubric

- Formative observation of Student Identity and Voice

### **Summative Assessments:**

#### **Suggested:**

- **Rubrics**
- **Rubric- Blank - Based off the Rubric used in the Connecticut Arts and Standards Model District Documents:**

### Unit Project Rubric Self-assessment

- Students will use the Creative Process to render a painting that demonstrates their understanding of color theory and their ability to manipulate color. Inherent in their work is their use of critical thinking skills to effectively communicate an idea and/or emotion.

### Painting Unit Project Reflection

- Students will participate in a reflective exercise to articulate artistic intention and demonstrate an understanding of artistic concepts.

### **Opportunities for Interdisciplinary Connections:**

Artists must connect all disciplines to be successful in our craft. When responding, creating and presenting art we are not just artistic, we are mathematicians, readers, historians, musicians and trades people.

- Utilizing any projects that are able to link to the objects, tools, or techniques that coincide with the different trades that are taught in any of our schools.
  - Aerospace Manufacturing, Architecture, Automotive Technology, Automotive Collision, Repair and Refinishing, Bioscience and Environmental Technology, Biotechnology, Building and Civil Construction, Culinary Arts, Criminal Justice and Protective Services, Digital Media, Diesel and Heavy-Duty Equipment Repair, Electrical, Graphic Design, Heating, Ventilation and Air Conditioning (HVAC), Health Technology, Hairdressing and Cosmetology, Information Technology, Landscape Design, Installation and Equipment, Masonry, Mechanical Design and Engineering Technology, Precision Machining Technology, Plumbing and Heating, Plumbing Heating and Cooling, Robotics and Automation, Tourism, Hospitality and Guest Services Management, Veterinary Science, Welding and Metal Fabrication.

### **Components of Social, Emotional, and Intellectual Habits**

- Develop logic and reasoning/Critical and analytic thinking
- Use evidence and critical thinking to support claims, make arguments and critique the reasoning of others; explain own thinking and responds to others' thinking
- Develop logic and reasoning/Applying known information to new experiences
- Compare, contrast and evaluate experiences, tasks and events building on prior knowledge
- Develop logic and reasoning/Reasoning and problem solving
- Analyze attributes to classify, compare and contrast objects, events and experiences (similarities, differences and associations)
- Develop a positive attitude toward learning/Cooperation during learning experiences
- Listen, discuss, and negotiate ideas in order to discover new learning with peers

## Priority Standards Addressed in Unit 4

### VA:Cr1.1.1a

Use multiple approaches to begin creative endeavors.

### VA:Pr4.1.1a

Analyze, select, and curate artifacts and/or artworks for presentation and preservation.

### VA:Re.9.1.1a

Establish relevant criteria in order to evaluate a work of art or collection of works.

### Big Ideas:

- Creative thinking and innovation are valuable skills that can be strengthened through practice and experience.
- During the creative process, artists and designers learn to balance exploration with safe and responsible studio habits.
- Engaging in critique and discussion helps people uncover deeper meanings in works of art.
- Individuals analyze and judge artworks using a variety of standards and viewpoints.

### Essential Questions:

- How do artists work?
- Why do people value objects, artifacts, and artworks, and select them for presentation?
- What role does persistence play in revising, refining, and developing work?
- How do life experiences influence the way you relate to art?

## Learning Outcomes

<i>Students will know:</i>	<i>As evidenced by: (oral, written, or performance):</i>
<b>VA:Cr1.1.1a</b> <ul style="list-style-type: none"> <li>• Drafting Art</li> <li>• Creating using objects</li> <li>• Creating using observation</li> <li>• Use of color and black and white</li> </ul>	<b>VA:Cr1.1.1a</b> <ul style="list-style-type: none"> <li>• Creating different drafts of art</li> <li>• Show growth and the difference of a creative process</li> <li>• Creating pieces from real life</li> <li>• Utilizing various media in their artwork</li> </ul>
<b>VA:Pr.4.1.1</b> <ul style="list-style-type: none"> <li>• art selection</li> <li>• What is a finished piece of art</li> <li>• Interpretation &amp; layout</li> </ul>	<b>VA:Pr.4.1.1a</b> <ul style="list-style-type: none"> <li>• Finding appropriate spaces for art installations</li> <li>• Reflecting on how layout and presentation can directly impact interpretation of art</li> </ul>
<b>VA:Re.9.1.1a</b> <ul style="list-style-type: none"> <li>• Criteria</li> <li>• Evaluation</li> </ul>	<b>VA:Re.9.1.1a</b> <ul style="list-style-type: none"> <li>• Establish relevant criteria</li> <li>• Evaluate a work of art</li> </ul>

- Work of art
- Art collection
- Artistic quality
- Judgment

- Evaluate a collection of works
- Justify judgments using criteria
- Demonstrate the art criticism method (describe, analyze, interpret, and evaluate) by using specific art vocabulary to evaluate their artwork and the work of their peers
